Complaint: Brakes were vibrating

Cause: Left front brake and drum are thin. I adjusted the brakes and greased them all. The S Cams were not seized up. I also adjusted the leveling valve as the air bags were not inflating properly. I told the driver to drive for a bit and see if the grease will work it out but that he will need to get the brakes and drums replaced on the front left axle soon.

Labor	Correction: Chassis / Air Brake / Left front brake and drum are thin. I adjusted the brakes and greased them all. The S Cams were not seized up. I also adjusted the leveling valve as the air bags were not inflating properly. I told the driver to drive for a bit and see if the grease will work it out but that he will need to get the brakes and drums replaced on the front left axle soon. - Completed: 4/3/2026	1.00000	\$169.00	\$169.00
