ADDITIONAL COMMENTS: Customer called for a fuel run. Upon arrival I added 10 gallons to the driver side tank then added one gallon to the passenger side. Last one I put about in the passenger side then used it to fill the fuel filters all the way up. I then let the driver spray either because he insisted to it. After the truck started I added the rest to driver tank. Truck is all good to go. [Mulesoft API-M User - 01/31/2026 22:41]
