SERVICE COMMENTS: 16 CCA driver denied. Should be at 4000cca [Amanda DeLong - 02/02/2026 10:43], Driver came in for an air leak under on his parking brake under his dash. Air leak was found on pressure release blow off valve on compressor. Blow off valve was removed and cleaned which fixed that leak. Tech also confirmed that the parking brake valve was bad and would need to be replaced to fix the air leak under the dash. Driver declined to have brake valve replaced at this time. [Cade Shifflett - 02/02/2026 10:57]
