Complaint: TRAILER HAS AIR LEAK. BRAKES SMOKED JUST A LITTLE BIT AS HE WAS LEAVING THE CONSTRUCTION ZONE

Cause: Customer request

Labor	Correction: Chassis / Chassis / Located unit, had the driver release brakes and checked for leaks. The only leak found was from a brake chamber on the tractor. I removed the bad brake chamber and swapped the fittings over to a new one. I then added a new chamber. This was a little bit challenging due to the amount of grease over every line and fitting, but was done efficiently. Return to service.	1.00000	\$207.00	\$207.00	N
